Digital TV

Basics

930SH supports One Seg terrestrial digital television broadcast services developed for mobile devices in Japan.

Landscape Position

Enjoy widescreen TV images in landscape position.

- Use ⚬ according to TV orientation.
  (Key assignments change as follows.)

⚬ (left/right)

⚬ (up/down)

Watch Live Television

Set up a channel list for your service area to access available programming. Capture screenshots while watching TV.

Multi Job

Watch TV in one half of Display using the other to access messaging functions, browse the Internet or open Phone Book, etc.

Access TV Listing (EPG)

Access TV Listing (EPG) to find program channels and times; set Reservations by date and time to record shows or activate TV.

View Data Broadcasts

In addition to audio and visuals, enjoy text, program-related information and interactive services.

Record Shows/Time Shift

Record current program for later viewing on handset; if interrupted by incoming calls while watching TV, record it temporarily for delayed playback.

Reserve TV Programs

Record a show or activate TV at a specified time; enter dates & times manually or reference TV Listing electronic program guide.

Precautions

- 930SH TV is exclusively for use in Japan.
- Do not use TV while driving or cycling. Accidents may result. Phone use while driving is prohibited by the Road Traffic Law (revised November 1, 2004). When walking, always pay attention to your surroundings, especially near road/rail crossings, etc.
- When using TV while charging battery, separate AC Charger and Antenna to avoid interference.
- Call transmissions, incoming messages or mobile phone use in the immediate vicinity may affect audiovisual quality.
- Programming may not be viewable or record properly when:
  - Too far from or too close to broadcasting stations
  - In mountainous areas or near tall buildings
  - Aboard trains or in moving vehicles
  - Near high-voltage lines, neon lights or wireless base stations
  - Near railroad tracks or highways
  - Anywhere a jamming signal is broadcast/ reception is unstable

Digital TV Antenna

TV Antenna is located behind Display. Move handset to find best reception.
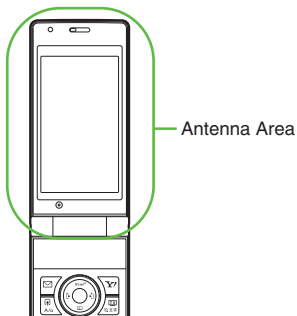

Antenna Area

Use optional TV Antenna Connection Cable as needed.

Area Setup

Follow these steps when activating TV for the first time. Set up channels by area.

1 ⌨

> Channels unset.
> Set now?
>
> Yes
> No

● Setup confirmation appears.

2 *Yes* ➡ ●

> Select Region
> Hokkaido/Tohoku
> Hokuriku/Koshin'e…
> Kanto
> Tokai
> Kansai
> Chugoku
> Shikoku
> Kyushu/Okinawa
> Other Region

3 Select region ➡ ●

4 Select prefecture ➡ ● ➡ Select locality ➡ ●

> Tokyo
> Tokyo 23 Wards
> set.

● After setup, channel list appears.

5 ●

> Saved Tokyo 23
> Wards in Area 1.

● To watch TV, select *Digital TV* and press ●.

Watching TV without Completing Area Setup
In **3**, ◌ *Other Region* ➡ ●
Adding Reception Areas
⌨ ➡ ✉ ➡ *Set Channels* ➡ ● ➡ *Change Area* ➡ ● ➡ Select Area ➡ ✉ ➡ *Set Area Info* ➡ ● ➡ From **3**

🔲

🔖 ●Switching reception Areas ●Renaming Areas ●Changing/disabling ◌ function ●Editing channels ●Deleting all channels in Area ●Adding new channels to Area ●Updating all channels in the Area (**P.6-11**)

Watching TV

Complete Area setup first.
Use ⊙ according to TV orientation.

1 📺

TV Window

- TV orientation changes with Display orientation.
- In portrait position, Data Broadcast text appears.

2 Use Keypad to select a channel

- Use ⊙ to switch channels one by one; Long Press to find channel with stable signal automatically.

3 ☎ ➡ *Yes* ➡ ⊙ ➡ TV ends

Incoming Calls

- Press ☎ to answer calls.
- When S! Circle Talk request arrives, press 🔘 to start S! Circle Talk.

When Memory Card is Inserted

- If an incoming Voice Call interrupts a program, it is temporarily recorded to Memory Card for Time Shift playback. To temporarily record programs manually, press 📺 (Long) in TV window.

Incoming Messages

- Double beep sounds and New Message notice appears. Long Press ✉ to open messages.

Key Assignments

Open Options Menu	✉
Toggle Panel On/Off	📺

Capturing Screenshots

Capture screenshots while watching TV. (May be unavailable if TV was activated by TV Timer.)

Saved images cannot be forwarded, edited, set as Wallpaper or attached to messages.

1 In TV window, 🖵

2 ●
  ● Image is saved.

Opening Saved Images

1 ● ➡ *TV* ➡ ●

2 *TV-Image Folder* ➡ ●
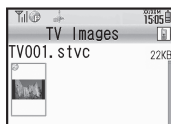

3 Select image ➡ ●

Opening Images while Watching TV
[TV Window] ✉ ➡ *Capture* ➡ ● ➡ *TV-Image Folder* ➡ ●

Enlarging Specific Image Portion

Available in landscape position.

1 In TV window, ⁂1⁂ - ⁵9⁞
  ● Long Press Key Assignments:

⁂3⁞	⁂6⁞	⁵9⁞
Upper left	**Upper center**	**Upper right**
⁂2⁞ **Left**	⁂5⁞ **Center**	⁸8⁞ **Right**
⁂1⁂	⁂4⁞	⁂7⁞
Lower left	**Lower center**	**Lower right**

Multi Job

1 In TV window, 🔄

2 Select function ➡ ●
  ● To toggle function windows, press 🔙.

3 ☎ ➡ Function window closes

Recording/Playing Programs

Record clips on handset or Memory Card while watching TV.

Dubbing 10
● 930SH supports Dubbing 10 copy protection scheme that allows recorded programs to be copied from handset to Memory Card. Open file properties to check the remaining number of copies allowed to be made.

Precautions
● Saved files cannot be forwarded or attached to messages.
● 930SH encryption technology prevents unauthorized copying or playback of Memory Card files through data encryption and authentication. Files copied from Memory Card to other cards on PC are unplayable.
● Copyright laws limit duplicated material to private use only, and prohibit unauthorized reproduction/other use.
● SoftBank is not liable for any damages resulting from accidental loss or alteration of recorded content.

Recording Programs

When Small Light flashes yellow, reception is poor; change location to improve it: Small Light illuminates green for moderate, or blue for strong reception.

1. **In TV window, ● (Long) ➜ Recording starts**

Recording Window
● Changing volume, etc. does not affect recordings.

2. **● (Long) ➜ Recording ends**
● Clip is saved to handset (or Memory Card, if inserted).

Recording Programs in Portrait Position [TV Window] ☒ **(Long)**
Memory/Battery Runs Low or Video Call/S! Circle Talk Request is Accepted
● Recording stops. (Recorded clip is saved.)
Saving Files via the Internet while Recording
● While recording programs to handset, confirm there is enough free memory before saving files.

Chasing Playback

Watch a program from the beginning while recording it on Memory Card.

1. **⌨ (Long)**
● Recording window returns when playback has caught up to the real-time program.
● See the table on **P.6-9** for playback operations (Split File and Set Marker are not available).

2. **☒ (Long) ➜ Playback stops**

### Advanced

Playing Recorded Programs

1 ● ➔ *TV* ➔ ● ➔ *TV Player* ➔ ●

Video List

● Handset Video List appears. (Memory Card Video List appears if a card is inserted.)

● 囲 indicates the file is unplayable.

2 Select file ➔ ●

Playback Window

● Playback starts. (The last played file plays from where it stopped.)

3 🗺 (Long) ➔ Playback stops

Changing Video List from Memory Card to Handset
After **1**, ☑ ➔ *Change to Phone* ➔ ●

Playback Operations

● Adjust volume or enlarge widescreen image portion in the same way as while watching TV.

● Use 🔄 according to TV orientation.

Fast Forward	🔄
Rewind	🔄[1]
Skip Forward	⊞#🔄
Skip Backward	⊞✳🔄
Pause[2]	● (🗺 in portrait position)
Split File	🔳 (Long)

Digital TV

Watching

TV won't activate

● Battery may be low. Charge battery or install a charged battery.

Cannot watch TV

● Reception may be poor (**P.6-5**); change location to improve it. (TV signal strength is independent of handset signal strength.)
● Handset may not have been used for a period of time; retrieve Network Information (**P.13-6**).
● TV is disabled upon subscription termination.

Area setup does not complete correctly

● Perform *Update All* in Channel Update. Area setup may not complete correctly depending on the area or service availability.

Recording

Ringtone does not sound as set while recording

● When a Chaku-Uta® file, etc. is set as ringtone, default ringtone may sound for incoming transmissions while recording.

TV Recording Timer

Could not start recording. **appeared as recording result**

● Recording failed due to low battery/ memory, active function, etc.

Recording aborted. **appeared as recording result**

● Recording was interrupted due to low memory, Memory Card removal, etc.
